

EDUARDO DURÁN BANEGAS

FULL-STACK WEB DEVELOPER · Higher Technician in Web Application Development (DAW)

La Palma, Canary Islands, Spain · +34 722 69 99 63 · edudbdaw@gmail.com · Open to relocation / remote

Portfolio: edudbdaw.github.io/PortFolio · GitHub: github.com/edudbdaw · LinkedIn: /in/eduardo-duran-banegas

PROFESSIONAL SUMMARY

Full-Stack Web Developer specialized in Laravel, PHP, Vue.js/JavaScript and PostgreSQL/MySQL, with hands-on international experience building a production platform for Aarhus University (Denmark). Comfortable owning a feature end-to-end: database design, backend logic, accessibility-focused front-end, and Docker-based deployment. Actively maintains a public portfolio and GitHub with 40+ repositories and 450+ yearly contributions.

TECHNICAL SKILLS

- Languages & Frameworks: PHP 8.4, Laravel 12, JavaScript, Vue.js, Java, Python
- Databases: PostgreSQL, MySQL (Eloquent ORM, query optimization, indexing)
- Front-End: HTML5, CSS3/SASS, Tailwind CSS, Bootstrap, Livewire, accessibility (i18n/real-time translation)
- Tools & Infrastructure: Docker, Git, GitHub, Linux, TCP/Socket integration, REST & MediaWiki APIs, HMAC auth

EXPERIENCE

Full-Stack Developer — Internship | Aarhus University (Denmark)

March 2026 – June 2026

- Built and maintained FUT, a full-stack remote-control platform (PHP 8, JavaScript, PostgreSQL) enabling astronomy students and researchers to operate a professional 60cm telescope at Mt. Kent Observatory, Australia, via TCP/Socket connections.
- Automated calibration and analysis workflows for FITS scientific images, processing hundreds of images generated daily during observation sessions.
- Improved platform accessibility by implementing a real-time translation feature, allowing international students and researchers to use the interface in their own language without page reload.
- Identified and resolved recurring bugs affecting daily research operations, improving platform stability and reliability for the observatory team.
- Resolved technical discrepancies between hardware coordinates and astronomical databases (MediaWiki API integration) to ensure data integrity across observation records.

PROJECTS

90Sleep — R90 Sleep Cycle Alarm App | Personal Project — Published on Google Play (closed testing)

- Designed and built a native mobile app implementing the R90 90-minute sleep-cycle method, with sleep logging, statistics, custom sleep configuration, and a countdown-to-wake alarm.
- Migrated the codebase from a Capacitor/web-based prototype to native Flutter to improve performance and platform integration, learning the framework from scratch with AI-assisted development.
- Published to Google Play Store (closed testing phase). Source repository is private — available on request.

B2B Multi-Tenant Management Platform | Personal Project — In development

- Building a multi-tenant B2B platform with Laravel 13, PostgreSQL 18, and Vue/Inertia, implementing HMAC request signing for secure API-to-API authentication between tenants.
- Source repository is private — available on request.

Mercadillos La Palma — Multi-Role Market Platform | Government Adoption Plan, La Palma

- Designed and built a multi-tenant e-commerce and inventory system (Clients, Vendors, Administrators) for local agricultural markets using Laravel 12, Livewire, MySQL and Tailwind CSS, developed with view to adoption by the local government.

Other GitHub Projects | Personal

- Video game catalog (PHP PDO + SQL filtering), memory-matching game (vanilla JS), and Fast Notes app — full list on GitHub.

EDUCATION

Higher Technician in Web Application Development (DAW) | IES José María Pérez Pulido · 2024 – 2026

Degree in Agri-Food and Rural Environmental Engineering (Partial studies) | University of the Balearic Islands · 2020 – 2023

Baccalaureate in Health Sciences | IES Eusebio Barreto Lorenzo · Completed

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900) — Cloud Infrastructure
- Cisco Certified Support Technician (CCST) — Cybersecurity
- Certified Python Developer — Data Structures & Scripting
- JavaScript Specialist
